

Dear dance practitioners,

we hereby invite you to join us in our networking and sharing events as part of SAN.

Satellite Art Network is an initiative that enables a cross-regional exchange structure for dance practitioners.

ARTISTIC EXCHANGE

@ Tanzkoop Studio Braunschweig
Saturday, 02.12.2023

We invite you to an open day of artistic exchange with the presentation of the work in progress of "Holding on" by Israel Akpan Sunday.

IJAKADI OKAN builds a bridge between the traditional legends and stories of the Nigerian Yorùbá culture and the present, between the metropolises of Hamburg and Lagos. In interplay with live music and poetry, Israel Akpan Sunday choreographs the West African tradition of collective storytelling and transfers it into a contemporary context. Moving between traditional and modern African dances, he focuses on the "inner struggles" (translation of the title from the Yorùbá) and human challenges such as dealing with stereotypes and different forms of knowledge transmission.
